OPIS

This system is best for smaller retail spaces, meeting areas, and ancillary zones. **For large, outdoor, football-game type uses we suggest the IPA2 or IPA3.**

Installation is easy – all you have to do is plug in the mixer and amplifier, attach the speaker cables, and turn on! You can easily connect an iPod/MP3 player, CD player or tape deck to the system, if desired. There are multiple mixer inputs – two for mics, four for line sources. A handheld switched microphone is included. The loudspeakers can be bolted to a wall, pole, or other location as needed. Loudspeakers are fully weatherproof, IP56-rated.

Options include **wireless mics**, **MP3 instant playback** system, our **NEW!** super-powerful OSLO **subwoofer**.
